## Recommendations

**Masks** are not required in most indoor and outdoor settings for vaccinated people, except by local regulation e.g., from businesses, workplaces or local government. Unvaccinated

**Indoor gatherings** should be avoided with people outside the immediate household, unless you are fully vaccinated. See [guidance for vaccinated individuals](#). Outdoor gatherings

0.001% of people who have received a dose experienced a severe adverse reaction. [See more vaccine resources and FAQs.](#) [About this data](#)

## Cases

DAILY NEW CASES

● **1.2** PER 100K

INFECTION RATE

● **0.81**

POSITIVE TEST RATE

● **0.5%**

Over the last week, San Francisco County, California has averaged 11 new confirmed cases per day (1.2 for every 100,000 residents). [About this data](#)

Share

Note that our daily new cases per 100k metric is different than the "adjusted case rate" metric used by California for determining reopening tier assignments. Their adjusted case rate is adjusted to account for testing levels.

## Hospitalizations

ICU USED

● **66%**

ICU PATIENTS

**3.0**

HOSPITALIZED PATIENTS

**17.0**

San Francisco County, California has reported having 254 staffed adult ICU beds. 165 are filled by non-COVID patients and 3 are filled by COVID patients. Overall, 168 out of 254 (66%) are filled. This suggests there is likely enough capacity to absorb a wave of new COVID infections.
